

LAHARI VENKATESH YEGI

Chennai, Tamil Nadu | vegilaven@gmail.com | 8074532585 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate with strong expertise in software development, data analysis, and scalable system design. Proven ability to develop secure, high-quality applications using Python and modern development tools while applying automation and data-driven insights to optimize software performance and troubleshooting. Experienced in building full-stack applications, NLP and machine learning solutions, and efficient data pipelines, with a solid grounding in databases, RESTful APIs, and cloud fundamentals. Adept at working in agile, cross-functional teams and solving complex technical problems to drive continuous product and process improvements.

EDUCATION

Saveetha Engineering College

B.Tech in Computer Science and Engineering

Anticipated May 2027

CGPA: 9.32

EXPERIENCE

NetworkGeek

Data Scientist Intern

Aug 2025 – Oct 2025

Chennai

- Processed and cleaned large real-world datasets (50K+ records) using Python, Pandas, and NumPy, improving data reliability and enabling accurate statistical analysis and model development.
- Conducted Exploratory Data Analysis (EDA) and built data visualizations to identify trends, correlations, and anomalies, supporting data-driven product and business decisions.
- Developed and evaluated machine learning models using Scikit-learn, gaining practical experience with Neural Networks, Transformers, and Large Language Models (LLMs) for predictive and analytical tasks.
- Automated repetitive data preprocessing and feature engineering workflows using Python, reducing manual processing effort and improving overall analysis efficiency.
- Collaborated with cross-functional teams to analyze datasets, interpret model outputs, and generate actionable insights, improving decision-making and technical troubleshooting processes.

PROJECTS

ArtyFacets – Music Workshop Booking Platform

Figma, TypeScript, Next.js, React, Node.js, Express.js, MongoDB, Postman, Git ([GitHub](#)) ([Live Site](#))

- Built a full-stack music workshop booking platform using Next.js, React, Node.js, Express, and MongoDB, enabling users to discover and book workshops across 100+ events with 99% data consistency.
- Designed and implemented RESTful APIs for booking, authentication, and workshop management, achieving sub-200 ms API response times and ensuring efficient backend communication.
- Developed a server-side rendered frontend with Next.js, improving page load performance by 35% compared to traditional client-side rendering.
- Engineered a scalable modular architecture supporting CRUD operations, workshop scheduling, and future features like payment integration and admin dashboards.

CampusWhisper – College-Based Real-Time Web Chat Application

MongoDB, Express.js, React.js, Node.js (MERN Stack), WebSockets ([GitHub](#)) ([Live Site](#))

- Built a scalable real-time web chat platform using the MERN stack, enabling seamless college-specific and cross-college communication.
- Implemented an event-driven WebSocket architecture to support high-concurrency real-time messaging with low latency and efficient handling of simultaneous user sessions.
- Engineered an automatic message self-destruction mechanism (5-minute lifecycle), enforcing zero long-term data retention to enhance privacy.
- Deployed the application in a cloud environment and configured production-ready environment variables and session controls to ensure stable live web traffic handling.

SKILLS

- **Expertise:** Software Development, Data Structures & Algorithms, Exploratory Data Analysis (EDA), Backend Development, RESTful API Development, Database Management, Software Testing
- **Languages:** Python, Java, C, C++, SQL, JavaScript, HTML, CSS
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Next.js, Scikit-learn, Pandas, NumPy, WebSockets
- **Databases:** MongoDB, MySQL, Oracle Database
- **Cloud & DevOps:** Microsoft Azure (Azure AI), Multicloud Networking, CI/CD Concepts, Application Resiliency
- **Tools:** Git, GitHub, Postman, Jupyter Notebook, Google Colab, VS Code, Android Studio

CERTIFICATIONS

- Machine Learning – Certificate of Merit, Summer Analytics 2026, Consulting & Analytics Club, IIT Guwahati (Top 25 percentile, 6-week program) ([Certificate Link](#))
- Aviatrix Certified: Multicloud Network Associate ([Certificate Link](#))
- Oracle Database SQL Certified Expert ([Certificate Link](#))
